Our pack will LAUNCH our rockets AT THE SANTA FE DAM RECREATIONAL AREA: Model Rocket launches is run by SCRA as a Core Program Partner of the County of Los Angeles Department of Parks & Recreation. SCRA conducts controlled & supervised launches for the general public at the Santa Fe Dam Recreational Area in Irwindale. YOU CAN ONLY LAUNCH IN THE PARK AS PART OF A CONTROLLED & SUPERVISED LAUNCH!! Normal SCRA safety-check and launching procedures will be followed. You must be familiar with the [Safety Advisory](#), launch procedures & have your flight cards filled out properly.

See [launch procedure](#) & and [Safety Advisor](#) and [flight cards](#) for more details.

DIRECTIONS: The park is located southeast of where the 605 & 210 Freeways meet. Enter park on Azusa Canyon Rd (on Arrow Hwy, just west of Irwindale Ave); pay the park vehicle fee (\$12) and then turn left at the main park roadway and proceed all the way to parking lots 5 or 6. Launch area will be roped off just south of parking lots (towards the dam) in "overflow" area. Park map is available at the park entrance or on our website

Dates are subject to change or cancellation due to weather, other events or FAA emergencies. LAUNCH TIMES: 8:00 am to 12:00 noon. Set-Up time is 7 am. Arrive early if you want to launch! SCRA launches at the Santa Fe Dam are scheduled to start at 8 am, but they will start late if volunteers do not show up early to help set up the launch equipment. Please arrive between 7 and 7:30 am to help. THANK YOU!!!

VEHICLE FEE (pay at park entrance): \$12 per passenger car. \$5 Senior citizen (65+). LAUNCH FEE (pay at safety check-in table): \$4 per flyer per day. The "flyer" is the person checking the rocket in through the safety check/pad assignment table. No fee for spectators. Fee waived for NAR members of Section 430 (indicated on NAR membership card) & for student American Rocketry Challenge (ARC) teams.

LIMITS: Field will accommodate up to a single G motor. There are trees & a lake downwind from our launch and recovery area, so you should use the lowest power motors possible to recover your model rockets safely. (We no longer use YahooGroups) for more details or advice.
